TERMINAL DISCLAIMER
UNDER 37 C.F.R. § 1.321(b,c)

Sir:

AXIS USA, INC., a corporation of the State of Delaware, having an office and place of business at 14120 McCormick Drive, Tampa, Florida 33626, is the assignee of record of the entire, right, title and interest, by assignment, of the following United States pending patent applications:

1. U.S. Patent Application No. 10/622,075, for "WINDER, AND METHODS FOR STRATIFIED WINDING, OF WIRE ONTO A DYNAMO-ELECTRIC CORE," filed July 16, 2003 as a continuation of U.S. Patent Application No. 09/960,550, filed September 20, 2001, now U.S. Patent 6,622,955. An assignment of the '550 application

from the named inventors to AXIS USA, INC. was recorded on January 18, 2002 at Reel 12514, Frames 19-21 and is effective for the '075 application as a continuation. ✓

2. U.S. Patent 6,991,194, issued January 31, 2006 on Application No. 10/458,921, for "NEEDLE SOLUTION FOR COIL STRATIFICATION," filed June 10, 2003. An assignment of the '921 application from the named inventors to AXIS USA, INC. was recorded on October 17, 2003 at Reel 14592, Frames 870-873.

The undersigned, on behalf of AXIS USA, INC., hereby disclaims the terminal portion of the term of any patent to be issued on the present application, Application No. 10/622,075, which would extend beyond the expiration date (currently June 10, 2023*) of the full statutory term of U.S. Patent 6,991,194.

The undersigned, on behalf of AXIS USA, INC., agrees that any patent to be issued on the present Application No. 10/622,075 shall be enforceable only for and during such period as the legal title to such patent shall be the same as the legal title to said U.S. Patent 6,991,194, this agreement to run with any patent to be issued on Application No. 10/622,075 and to be binding upon the grantee of such patent and its successors and assigns.

The undersigned, on behalf of AXIS USA, INC., does not disclaim any terminal part of the term of any patent, to be issued on the above-identified Application No. 10/622,075, that would extend to the expiration date (currently June 10, 2023*) of the full statutory term of U.S. Patent 6,991,194, in the event that U.S. Patent 6,991,194: (a) expires for failure to pay a maintenance fee, (b) is held unenforceable, (c) is found invalid,

* It is applicants' and assignee's intention that if any change in the patent statutes changes the expiration date of parent patent 6,991,194, or if parent patent 6,991,194 is hereafter awarded patent term adjustment under 35 U.S.C. § 154(b), then the date beyond which the term of any patent to issue on this application is disclaimed shall change along with the expiration date of the parent patent.

(d) is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a,b), (e) has all claims cancelled by a reexamination certificate, or (f) is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title stated above.

The undersigned hereby states and certifies that:

1. He is an attorney of record in the above-identified patent application and is authorized to act on behalf of the assignee corporation in connection with said application; and

2. The relevant evidentiary documents have been reviewed and, to the best of the undersigned's and assignee's knowledge and belief, title to the above-identified Application No. 10/622,075 is in the assignee.

Axis USA., Inc.
